

Isles of Inverrary

CATWALK REPAIRS

This will be a huge project that is anticipated to take 9 months to complete both buildings, and will take the cooperation of all residents.

Repairs to the catwalks are scheduled to start in Building 1 (6475) on October 8th, starting on the 5th floor and proceeding down to the 2nd floor. Just prior to that date the carpeting will be removed. Work hours will be from 8am to 4pm. Remove all plants and other personal items from your front entrance prior to this date so they are not damaged.

Keep clear of all construction areas. Do not allow children play in these areas.

- Due to the application of the new surface coating needing time to dry, each resident will need to make arrangements to stay at another location for **two nights and three days. You will not be able to enter your unit during this time.** You will be notified as soon as we know when you will need to leave. If you need hotel accommodations during the time you can't enter your unit, the Sawgrass Grand Hotel located at 3003 N. University Drive, Sunrise ~ 954-315-2174 is offering special room rates if you say you are from the Isles of Inverrary.

Due to weather and other events the schedules could change daily. It is important that you check the bulletin board each day for the latest notices.

Notices will also be posted at
